Grandchildren – meet Paris!

There are few joys greater for a grandparent than introducing your young loved ones to the splendours of the City of Lights.

Steeped in history and culture and with fun treats waiting on every corner, Paris is the ideal playground for kids where lifelong family memories can be made.

But trips abroad with young children can be fraught with difficulty, especially if you don't speak the language. **Family Twist** aims to take out all the hassle by organising a trip that is specifically tailored to your precise needs and those of your grandchildren. English-speaking drivers equipped with car seats suitable for your grandchildren will be on board to pick you up from the airport or train station, delivering you safely to your choice of hotel.

Family Twist can organise as much or as little of your holiday as you wish. You can select from a range of unique, fun and educational activities designed especially for children, such as treasure hunts round the Louvre or interactive walking tours round the city's medieval quarter. Or you can make the most of the original forms of transportation available, from horse-drawn carriages to boats down the Seine!

For something a bit more hands on, there are a number of fun and engaging workshops to choose from, including bread-making lessons in a fully equipped kitchen or a session learning how to paint in the style of the great French Impressionists.

This is a wonderful opportunity for grandparents travelling with their young grandchildren to introduce the next generation to the world's most magnificent city, creating special memories as you experience the wonders of Paris together.
